

GENERAL ACCOUNTING (2nd Year, 4th Semester)

Credit value (ECTS) 4

Course category

Domain (Imposed)

Course holder

PhD, Assoc. Prof Gabriela IGNAT

Discipline objectives (course and practical works)

The General Accounting course provides the understanding of the specific theoretical accounting skills to put into practice the theoretical knowledge and training skills to act autonomously in order to observe, analyze, interpret and provide solutions to specific problems in accounting and beyond.

The course and seminars enable the correct understanding of technical terms and the acquisition of specific skills on theoretical and methodological concepts of accounting for creating a consistent mindset on patrimony as an object of accounting, on understanding the principles and procedures regarding the records, calculation and motion analysis.
