

Herbs and spices (IIIrd YEAR, Vth SEMESTRY)

No. of transferable credits 3

Course status

Discipline field (optional courses)

Prof.univ.dr. ROBU Teodor

Discipline's objectives (course and applications)

The course aims to make students acquire knowledge on the importance of aromatic plants, seasoning/ spicy and tinctorial plants, how to use them in food industry: meat industry, pastry - bakery, dairy and beverage. It also aims at acquiring knowledge about spontaneous and cultivated medicinal plants, content in active principles of species, techniques and methods of harvesting, drying, conditioning and primary processing.

Practical work aims to make students acquire knowledge on biological particularities of aromatic plants, seasoning/ spicy and tinctorial plants, (anatomy, morphology) systematic classification (family, genus, species), requirements for vegetation factors (temperature, humidity, food, soil, light), edible parts and potential use of each species in food industry: meat industry, pastry - bakery, dairy and beverage.

Discipline content (analytical program)

Course(Chapters/ subchapters)
Cap. I. History of using aromatic, seasoning/ spicy and tinctorial plants in our country and all over the world.
Cap.II. Classification of aromatic, seasoning/ spicy and tinctorial plants.
Cap. III. Active principles/ ingredients of aromatic, seasoning/ spicy and tinctorial plants.
Cap. IV. Spontaneous of aromatic, seasoning/ spicy and tinctorial plants.
Cap.V. Harvesting, drying and packaging of aromatic, seasoning/ spicy and tinctorial plants.
Cap.VI. Primary processing of aromatic, seasoning/ spicy and tinctorial plants.
Cap.VII. Use of aromatic, seasoning/ spicy and tinctorial plants.
Practical works/Seminaries/ Lab activity
Notiuni generale, introductive privind potentialul multiplu de utilizare al speciilor aromatice, codimentare și tinctoriale
Evidențierea potențialului toxic al unor specii aromatice, codimentare și tinctoriale. Elemente de protecția muncii în timpul recoltării, depozitării, prelucrării ambalării și utilizării.
Părțile edibile ale speciilor aromatice, codimentare și tinctoriale, principii activi și concentrarea acestora în diferite organe, preabilitatea pentru utilizare în industria alimentară.
Aromatic, seasoning/ spicy and tinctorial species of <i>Apiaceae</i> Family – for use in food industry.
Aromatic, seasoning/ spicy and tinctorial species of <i>Labiatae</i> Family – for use in food industry.
Aromatic, seasoning/ spicy and tinctorial species of <i>Asteraceae</i> Family – for use in food industry.

Aromatic, seasoning/ spicy and tinctorial species of other botanical families, as follows: *Cruciferae*, *Brassicaceae*, *Solanaceae*, *Papaveraceae*, *Rosaceae*, *Canabaceae*– for use in food industry.

Particular techniques for harvesting of aromatic, seasoning/ spicy and tinctorial species for a superior potential exploitation in food industry.

Development of some drugs and spices using as raw material of aromatic, seasoning/ spicy and tinctorial plants

Final colloquium - knowledge tests.
