

Dear colleagues

This is the Central Erasmus office of UNIFI where we manage the Erasmus+ IIAs signatures. We are glad to confirm the automatic extension of the Agreement with your Institution for the academic 2022-23.

At present we are not ready to exchange IIAs via EWP. In fact we are working not with the Dashboard but with a third party provider (Cineca Esse3) and we are still in the testing environment (not able to exchange "real" IIAs), and experiencing great difficulties (no success so far to finalize any agreement). As concerns the signature of the next Erasmus Agreements from 2023-24, according to our calendar, we will collect the proposals from Erasmus coordinators of the ten Schools of our Institutions (based on the informal negotiations they had with prospective partners during the year) at the end of September 2022 and will start exchanging the official IIAs from October 2022, via EWP or in another way (pdf, email) until it is possible (as far as we know the EC has decided not to postpone the deadline of the end of December, so far)

With our kindest regards  
International and Erasmus Mobility Team  
I FIRENZE01

Dear Partener,

Warm greetings from Romania! I hope this email finds you well.

I'm writing to you regarding the renewal of our inter-institutional agreement and the nominations of Erasmus students for academic year 2022-2023.

We would like to extend our Inter-Institutional Agreement for the new Erasmus+ edition for the years 2021-2027, including the transition year 2022/23. Until we manage to sign our agreement digitally, we would suggest an **automatic extension for the year 2022/2023** via this email, for the time being, before we start the digital signing process.

As we already have one student that we would like to nominate for an Erasmus mobility at your university for the following academic year, we would appreciate it if you could reply to this email as soon as possible.

Kind regards,
