IIA Prolongation 2025/26

Dear colleagues,

We hope this email finds you well!

We are contacting you as we prepare our **Erasmus+ Call** for the academic year **2025/2026** for our outgoing students.

Currently, we are working on concluding all IIAs via EWP, however, we are still facing technical problems, which is why it will not be possible to finalise all contracts until the upcoming application period.

Therefore, we kindly ask you to consider our existing IIAs as valid for the academic year 2025/2026 without any additional formalities. **If you agree with this proposal, no response to this email is necessary.** If you have any objections, please let us know by email until 6 January 2025. Please happily ignore this email if we have already approved our IIAs via EWP.

We look forward to continuing our fruitful cooperation!

Best season's greetings from Vienna.

Claudia Zefferer & Lisa Kargl
